

Safety on Lands or Operations under the Control of the Victoria Airport Authority

Policy Type: Executive Responsibility

Policy Number: #215

Date Approved: 19 Oct 00

Date Amended:

Monitoring Responsibility: Audit and Finance

Frequency: Ongoing

The CEO shall establish safety programs that meet all Federal and Provincial Government requirements and other requirements deemed appropriate by the CEO for the safety of the Airport Authority employees, the public and other users who have access to lands and premises under the control of the Victoria Airport Authority. The CEO shall report to the Board at the earliest opportunity any safety related violations or safety incidents that could have a detrimental consequence. This is in addition to the established policy, the CEO shall report to the Chair of the Authority, all serious safety incidents including aircraft crashes immediately as soon as the opportunity arises after an incident of this nature occurs.
